PLANT BULBS THIS FALL FOR FLOWERING BEAUTY IN EARLY SPRING

The beauty of your garden early next spring depends to a large extent on what you plant this fall. Tulips, Narcissi, Crocus and other bulbs listed in this pamphlet are available only in the fall and must be fall planted to obtain their delightful flowers in the spring.

Ordering early will insure a complete selection. The bulbs will be sent at the proper time for planting.

We offer top size bulbs only. Smaller bulbs may be purchased for less money but they do not have the vitality to produce good blooms.

DARWIN TULIPS

Darwin Tulips are the most popular of our spring bulbs. This is due to their remarkable brilliance and wide range of color, together with the ease with which the large, tall stemmed flowers are grown.

The Darwin Tulip bulbs, in the show garden at the Rose Hill Nursery, have bloomed delightfully for several years.

In June when the leaves turn yellow and dry up they are cut off and removed, the bulbs being allowed to remain undisturbed in the ground. Annuals may be planted in the same space for summer bloom.

WE OFFER ONLY TOP SIZE BULBS

All bulbs offered are imported except Narcissi and Daffodils which cannot be imported.

COTTAGE TULIPS

Cottage, or May Flowering Tulips, vary greatly in form, some being oval, others with long slender flowers and many with pointed petals gracefully reflexing like brightly colored lilies. The stems are tall and stiff; splendid for cutting.

They bloom a little later than the Darwin and, being very hardy, are well suited for borders.

Plant same as Darwin Tulips.
